

## Crawler Excavator Spare Parts Sprocket

Shengan is a professional China Crawler Excavator Spare Parts Sprocket Manufacturers and suppliers. We stick to the principal of quality orientation and customer priority, we sincerely welcome your letters, calls and investigations for business cooperation.

### Product Description

Crawler Excavator Spare Parts Sprocket made in China can be bought with low price from Shengan, which is a professional high quality Crawler Excavator Spare Parts Sprocket manufacturers and factory in China. We provide customized products service. If you want quotation, you can ask us by leaving a message. We will get back to you as soon as possible.

Fujiansheng Shengan Mechinery Development co.,Ltd is a large scale excavator parts manufacturer and supplier in China. It has been established over 35 years crawler excavator spare parts sprocket.

We have professional heat treatment facilities to provide high quality products, short delivery time and the best service for our customers. Our factory mainly produces excavators, bulldozers parts. Track roller, carrier roller, sprocket, front idler, track chain, bucket, swamp track shoe and etc. Our products have been recognized and supported by customers in many countries. We often participate in exhibitions.

Choose us and we will bring you professional products and excellent service.

The excavator engine is transmitted to the crawler through the travel motor and the sprocket, which requires the sprocket and the track chain of the crawler to be properly meshed, the transmission is smooth, and the crawler can still mesh well when the track is stretched due to wear of the pin sleeve.

The excavator sprocket are usually located at the rear of the excavator travel gear.

### Crawler Excavator Spare Parts SprocketParameter (Specification)

Model Name	crawler excavator spare parts sprocket
brand	SA
Material	50Mn
Color	Black or Yellow
Surface Hardness	HRC55-58
Application	Crawler Excavator
Warranty time	1000 hour
Technique	Casting
Usage	Crawler track chain machine
Application	Excavator parts

### Crawler Excavator Spare Parts SprocketDetails

- 1.The excavator sprocket are usually located at the rear of the excavator travel gear.
- 2.According to the structure, it can be divided into: integral type, split type.
- 3.According to the pitch, it can be divided into: equal pitch, unequal pitch.
- 4.Material: 35MN2, and make its hardness reach HRC55-58.
